ROLEPLAYS

RECORD TASKS

SUCCESS CRITERIA

Every task in this PDF is a speaking task. None of them require a partner — there's a solo version for each one. If you do have a partner, use the roleplay cards. If not, use the solo instructions.

Speaking Warm-Up — Do This Before Every Session

Say these things aloud in Spanish, from memory, without looking anything up. It should take about 2 minutes:

1. Your name, age, and where you live
2. Three things you like and why
3. What you did yesterday morning
4. What you're going to do this weekend
5. Describe one person you know

If you hesitate for more than 5 seconds on any of these, that module needs more work. Go back to the workbook (PDF 04) for that section.

Roleplay Cards

For each roleplay, there's a solo version and a partner version. Read both cards before starting.

ROLEPLAY 1A — You

Situation: Café

You're at a café in Madrid. You want:

- A coffee with milk
- A slice of tortilla española
- The bill at the end

You're also vegetarian — check if the tortilla has meat.

You don't understand something — ask them to repeat more slowly.

ROLEPLAY 1B — The Waiter

Or: solo version — play both roles

Greet the customer. Ask what they want.

Tell them the tortilla has no meat — it's just eggs and potato.

Give the price: 7 euros 50.

Ask if they want anything else before bringing the bill.

ROLEPLAY 2A — You

Situation: New school, meeting someone

You're a new student. Find out:

- Your partner's name and where they're from
- What they think of the school
- What their hobbies are
- If they want to meet up after school

Share information about yourself too.

ROLEPLAY 2B — The Existing Student

Or: solo — ask and answer both sides

Welcome the new student.

Answer their questions naturally.

Ask where they're from and why they moved.

Give your honest opinion of the school (positive and negative).

Suggest something to do together.

ROLEPLAY 3A — You (Patient)

Situation: At the doctor's

You have:

- Stomach pain since this morning
- No fever, but you feel tired
- You haven't eaten anything unusual

Ask: Can I do sport? Do I need medication?

You're nervous — this is your first time at a Spanish doctor.

ROLEPLAY 3B — The Doctor

Or: solo — play both roles

Greet the patient warmly.

Ask about symptoms, how long, if they have fever.

Diagnose: probably just a stomach upset.

Prescribe: rest, plenty of water, no heavy food for 24 hours.

Say they can do light sport tomorrow but nothing intense today.

CHALLENGE B1 Roleplay 4 — Formal complaint
